

Health Promotion

Molina Medicare's Health Education programs will be incorporated into the Member's treatment plan to address the Member's health care needs.

motherhood mattersSM pregnancy management program

The motherhood mattersSM pregnancy management program strives to reduce hospitalizations and improve birth outcome through early identification, trimester specific assessment and interventions appropriate to the potential risks and needs identified. The motherhood mattersSM does not replace or interfere with the member's physician assessment and care. The program supports and assists physicians in the delivery of care to members.

If you would like to refer a Molina Medicare member to the motherhood mattersSM program, please complete Prenatal Notification Form

Molina Medicare offers patient education materials. You may download, print and distribute to your Molina Medicare patients.
